

Using TightVNC in an SSH Tunnel

published by admin on Sat, 04/11/2015 - 20:26

After setting up SSH and installing TightVNC, open the tunnel.

- `ssh username@192.168.0.0 -L 8900/localhost/5900`

Then access the tunnel via TightVNC.

"C:\Program Files\TightVNC\vncviewer.exe" localhost:8900
